

Generic Cialis an Amazing Pill for ED

According to the surveys conducted all over the world, erectile dysfunction was found to be the most common condition in men which is responsible for the sexual disasters. Erectile dysfunction is the condition in which the man is unable to get or hold the erection for sufficient amount of time. Erectile dysfunction is the most embarrassing problem a man could face when he is involved in a sexual relationship. Erectile dysfunction is caused by excessive stress; diseases like diabetes, blood pressure, and obesity; too much alcohol or drugs; and exhaustion. Erectile dysfunction affects men not only sexually but also physically and psychologically by giving stress to the relationship.

Every question has the answer and thus the answer for the treatment of erectile dysfunction soon came to the market and it was called as Viagra. It really made all the men suffering from erectile dysfunction happy and gave a new light of hope. Men started using Viagra and were satisfied. But one drawback which Viagra had was the effects of Viagra were seen only for 3 to 4 hours. Thus there was a need of a drug which can give you the effects for the more time. Thus, the discovery of Cialis was done.

Cialis was the medication which showed the effects up to 36 hours, whereas Viagra only showed the effects for the 4 hours. Tadalafil was the active constituent of the Cialis, which was responsible for its effect. Cialis was boon for the men suffering from erectile dysfunction. Cialis was very costly so still these drugs were not affordable by common man. Then a revolution came, when generic Cialis arrived to the market which was similar to the original Cialis. Generic Cialis quickly captured the market and became favorite choice among the customers to treat erectile dysfunction.

Generic Cialis became more famous than the original Cialis because of the low cost and best quality. Generic Cialis is preferred over the Viagra because of the good consistent results for more time. Thus, Cialis is called as the amazing pill to treat erectile dysfunction.
