

The Celebrex Sensation - Do You Need To Call A Celebrex Attorney?

Nowadays, the wonder drug Celebrex is under close scrutiny from hundreds, if not thousands of medical, civil, and also government organizations. The issue? It was revealed that Celebrex, along with other similar drugs, can bring other health risks to its consumers. That's why hundreds Celebrex Users are enlisting the aid of Celebrex attorneys to claim lawsuits against the drug manufacturers for the side effects they gained from taking this drug. In the states of Louisiana and Missouri alone, Missouri Celebrex attorneys and likewise Louisiana Celebrex attorneys have been flooded with clients determined on filing lawsuits against Pfizer, the manufacturer of Celebrex.

Celebrex is a non-steroidal anti-inflammatory pain reliever (NSAIDs) that works by reducing hormones that cause pain and inflammation within the body. It is used specifically to treat those suffering from arthritis, osteoarthritis, ankylosing spondylitis, and even dysmenorrhea.

Since its release, Celebrex has caused a sensation because of its seemingly amazing benefits. So much was the public's amazement that it amassed an incredible amount of \$1 billion dollars in sales during its first year.

However, recent studies have shown that these drugs are not so beneficial after all, as they bring added health risks to its consumers. Health risks such as heart problems, kidney and intestinal bleeding or perforation, stroke, and in worst cases, even death. That's why the FDA is taking steps to have this drug recalled for further study.

Lawsuits are filed all over by Celebrex users who have developed other health risks from taking this medicine. They typically seek to recover damages brought about by this drug. For medical costs, pain and emotional suffering, lost wages, and many more damages as a result from consuming this drug. Drug consumers everywhere are soliciting lawyers to help them. From Missouri Celebrex attorneys, to Louisiana Celebrex attorneys, every law practice with lawyers experienced with this drug has their hands full dealing with clients with these issues.

If you are a Celebrex user, it is a good advise to consult with your doctor and discuss your experience with this drug, to find out if you are in any kind of danger from taking this. You and your doctor can also discuss alternative drugs or some other kind of method to treat your ailment. After all, the reason you are taking these drugs is to get better, not to gain additional health problems.
