

## Get back your confidence, get a modest swimsuit

The term modest swimwear is the latest trend in the market. Not just for Muslimahs and Islamic women but for western women too. The 2 piece bikini set and the barring of flesh is not in fashion now.

With the crimes of the world increasing, multiple incidences of eve teasing at the beaches and social crimes such as rape on a high. The safest garment for women that covers the body and helps enjoy the aquatic sports is a modest swimsuit like Bodykini.

Bodykini has been designed to follow the Islamic tradition and so covers the complete body showing off the flesh on face, hands and feet only. This design is becoming popular not only in Islamic countries but also in the western world. Women in Australia, Turkey, America and many other western states are turning to Bodykini. The main reason is that they can dress modestly and feel confident. Along with modesty Bodykini's unique design ensures that all water sports can be performed comfortably without any issues.

Women athletes across the globe are switching to Bodykini. Muslim water sports athletes, who had to quit their sports and throw out the desire to play any water sport, are back in the race with Bodykini. "Bodykini has helped me enjoy swimming and playing beach ball because of the modest fit and comfort" says Fatima, an 18 year old student. Fatima had to quit swimming few years back when the traditional swimsuit for Muslims had a number of garments that kept on slipping when the women performed any water sport. But, now she enjoys it without any issues.

Hundreds of such cases have been reported across the globe. In fact, in Australia women with Bodykini have accepted for the lifeguard training posts. So, you can imagine how easy it is to swim with Bodykini.

With the world changing and opening its arms to Bodykini, it is time each and every woman gets one and enjoys the beach and pool without being starved by the males. Get your confidence, get Bodykini.

## About the Author

Hello world,

Wife and mother of two beautiful children, living in California. In my spare time I love surfing the net and reporting about new trends.
